Education

Chandigarh Engineering College

B.Tech Computer Science Engineering (CGPA – 7.83)

2019 – 2023

Mohali, Punjab

Professional Experience

Tietoevry

Aug 2024-June 2025

Junior Software Engineer

Chandigarh, India

- Developed scalable and responsive UI's using React.js and Next.js, leveraging reusable components, SSR/SSG, and modern UI/UX best practice and UI Kits such as Bootstrap, shadcn, MUI.
- Built and maintained API Gateway, RESTful APIs with Node.js & Express.js, integrating MongoDB for efficient data modeling, queries, and CRUD operations.
- Integrated AI/LLM models (e.g., OpenAI APIs, Gemini APIs) into applications to automate workflows, enhance content generation, and improve user interactions and Information Technology security.
- Delivered full-stack and AI-powered applications, integrating front-end frameworks with back-end services to optimize performance and user experience and with Serverless Architecture and Caching.
- Ensured quality and scalability through automation scripts, Git/GitHub version control, debugging, and code reviews, while following Agile Methodologies and Scrum practices.
- Deployed and maintained projects on cloud platforms (e.g., Vercel, AWS, or Azure, GCP) with CI/CD pipelines, ensuring reliable and automated releases.

Dec6 Consulting Pvt. Ltd.

Nov 2023 – Jan 2024

Associate Consultant-SDE

Gurugram, India

- Developed dynamic and responsive front-end interfaces using React.js, implement reusable components and modern design patterns for scalability.
- Built and optimized multiple static and interactive screens, ensuring cross-browser compatibility, accessibility, and mobile responsiveness, using Jest, Cypress for testing and Debugging critical issues while maintaining Responsive Design and Web Security.
- Resolved 15+ critical UI/UX issues in tabulator tables and search bar functionality, improving portal load speed by 30% and enhancing data accessibility, web security and.

Origin Software

Feb 2023–Jul 2023

SDE Intern

Hyderabad, India

- Designed and developed full-stack MERN applications, converting Figma UI/UX designs into responsive, production-ready front-end interfaces using React.js, Next.js, and Tailwind CSS.
- Leveraged Next.js features (SSR/SSG) to enhance performance, SEO, and load speed, while applying Tailwind CSS for rapid, consistent, and scalable UI development.
- Collaborate in Agile teams to deliver end-to-end MERN stack solutions, ensuring scalability, maintainability, and high-quality deployment pipelines while optimization of workflows.

Courseworks & Achievements

Coursework : Data Structure & Algorithms, Object Oriented Programming (OOP), Operating Systems, CN, DBMS, AI/ML, Architecture.

Achievements : Ethical Hacker Certification by Cisco, API Security certifications, Prompt Engineering

Projects

AgencyFlow- An Agency Management Solution [\(Live Demo\)](#)

May 2023

- Built a full-stack MERN agency management platform with role-based access control (Owners, Team Members, Clients), enabling secure project, task, and client collaboration with JWT authentication and real-time updates via Socket.io.
- Designed an end-to-end project & task management system featuring Kanban boards, priority levels, deadlines, cascade deletion, and orphan-task cleanup, improving data integrity and workflow efficiency.
- Delivered a modern, responsive UI/UX using React (Vite) and Tailwind CSS, including a client portal, interactive calendar, persistent sidebar state, and documented REST APIs with Swagger.

Web Vulnerability Scanner | MERN Tech Stack Product

April 2025

- Design and implemented a web application leveraging AI to scan URLs for vulnerabilities and provide remediation strategies. decrease Manual Reporting time by 60% and improving security posture.
- Generate comprehensive reports for Scans using the Gemini API improving productivity by 40% and save time by 50%.

Technical Skills

Programming Language: C++, C, JavaScript, Python, HTML5 / CSS3, SQL, NoSQL, GIT

Technologies: AWS, Azure, React.js, Node, Agile, REST API, MongoDB, Full Stack, MERN, Next.js, Redux, ORM, Web Security

Operating Systems: Windows, Linux, macOS, Kali Linux

Software Tools: VS Code, Docker, Burp Suite, Postman, Figma, Cloud, Database, MongoDB Compass, Kubernetes, Github, GitLab

Soft Skills: Problem-Solving Skills, Adaptability, Communication Skills, Teamwork, Attention to Detail, Collaborative, Growth seeking
